

Auditorio Atlantis

SAC

The main attraction of this space is its auditorium.

It has a capacity of up to 256 seats, consisting of 4 LED screens and a central screen measuring 11x7m with mapping technology, as well as internet access and an advanced audio system.

Behind the main screen, there is a unique feature, a transparent glass wall that allows viewing an immersed Amazonian forest.

Capacity: 254 people.

This space is located on the banks of the Guadalquivir River in an exceptional location, just a 5-minute walk from the historic center of Seville and María Luisa Park.

It is easily accessible on foot and by public transport.

Additionally, it has parking nearby.

Its audiovisual facilities make it the first immersive and multi-sensory space in Seville, perfect to host unique events: in-person, digital, or hybrid. In the Auditorio Atlantis, we can enjoy a 360-degree visual and auditory experience.

Its audiovisual tools also allow this space to be transformed into a television set to record virtual events intended to be streamed through streaming technology. Additionally, it includes seating and facilities for attendees, enabling hybrid events: in-person events with limited capacity that are also broadcasted virtually.
